Pollution Prevention

Does the facility have a documented pollution prevention plan?

No

Did the facility complete any pollution prevention activities in the current NPRI reporting year

No

If no, please select all applicable reasons from the list below:

Other (please specify): Copper and manganese are article components of the raw material and a by-product of the finished goods from machining operations. All scrap metal generated as part of our operations is recycled. Therefore, no pollution prevention activities are applicable at this time.

Feedback

Comments on the Reporting System

Very satisfied. Did not encounter any technical issues, but there is room for improvement.
